Designed & Built for the Australian way **PRACTICE LIKE A PRO**

ENDURO PRO – Designed and built for the the Australian way at a great price, suitably built to be used by both juniors and elite players

Lightweight & Portable: Can be handled by one adult due to its light weight and is completely transportable at 35kgs with demountable legs for easy transportation. Can be operated with generator or Battery/ Inverter.

Dependable: Pugged steel powder coated frame with wide sturdy base for stability to ensure years of use.

Accuracy: Solid urethane wheels provides the best ball grip and don't require air pressure, balancing or lubrication assuring control and pin-point accuracy.

Speeds: Range from a soft lob to 160km per hour.

Versatile: ENDURO PRO can bowl the full range of deliveries such as pace, swing, spin including leg & off spin, wrong-un's, top spinners etc and is excellent for fielding drills due to its range of movement. The adjustments are made easily with quick release handles that control the plane of the delivery length and ball rotation. This makes it possible and time effective to change up your ball variation very easily. By adjusting the speed of each wheel slightly will also give you additional variation options.

Accessories: (P.O.I.) • Transporting Caddy Wheels • Automatic Ball Feeder
• Lockable Wheel Collar - Fits and protects machine and balls. Can be used as a step to feed machine (max. weight 120kg) • Genquip digital inverter petrol generator (2000 watts)
